Hero: a mythological or legendary figure often of divine descent endowed with great strength or ability.
Some heroes wear uniforms, some wear suits, some wear the same clothes we do. You never know when you might be in the presence of one. What you do know is that they give all they have so that we might live our lives in peace.

Celebrity does not make a hero.

Throwing, hitting, catching or dribbling a ball does not make a hero.

Running into a burning building when everyone else is fighting to get out, makes a hero.

Saying good-bye to loved ones to travel to the other side of the world and give up all the commonly taken-for-granted comforts makes a hero.

Knowing you’re about to go through a door and be confronted by something evil, and doing it anyway, makes a hero.

Living your life in such a way; with such honor and integrity; that a small boy or girl believes the sun rises and sets because you allow it, makes a hero.

For those of you to whom we refer to as hero…

Air Force, Army, Coast Guard, Marines, National Guard, Navy, Reserves, Law Enforcement Officers, Firefighters, Wildland Firefighters, EMT and Paramedics…thank you. We appreciate you, who you are and what you do.
**B02 SmallFly**

The SmallFly integrates traditional butterfly knife elements with innovative Spyderco features, effectively **Spyderizing** a butterfly knife. 17-4 stainless MIM (metal injection molded) handles are elongated, modifying the Fly’s center of balance over traditional butterfly knives. This added handle length generates more momentum and equilibrium when swinging and manipulating. Wire pocket clip and spring-loaded locking latch attach to either handle for left/right carry. 154CM stainless blade is centerline ground equally dispersing blade weight for complimentary balance and symmetry.

- 4-way positioned tip-up clip
- Screw together construction
- Spring loaded latch locks blade closed
- Flat saber- grind with non-sharpened swedge
- Weight reducing swedge-grind at the spine
- Made in Golden, Colorado U.S.A. Earth

**B02G SmallFly G-10**

Corresponding features as the MIM SmallFly but with G-10 laminate handle scales. 154CM blade grind marches down the center of the blade with a false-edge spine swedge.

- 4-way positioned tip-up clip
- Screw together construction
- Spring loaded latch locks blade closed
- Flat saber- grind with non-sharpened swedge
- Weight reducing swedge-grind at the spine
- Made in Golden, Colorado U.S.A. Earth
**B02TR SmallFly G-10 Trainer**

Equal in weight, size and balance as a live SmallFly G-10, designed for training and practice. Red G-10 handle denotes it a trainer with no live cutting edge.

- 4-way positioned tip-up clip
- Screw together construction
- Spring loaded latch locks blade closed
- Made in Golden, Colorado U.S.A. Earth

**B03 SzaboFly**

It would be difficult to label Laci Szabo. Call him a knifemaker, martial artist, adventurer, film star, businessman and more. Let’s just credit him as the creator of the SzaboFly. Szabo-stylized butterfly has apparent Spyderco’s influence in the handle’s round holes enabling retention and control over the knife while rotating and swinging. Szabo’s personal style is reflected in the curved handle and blade which curl into each other when the knife is closed. The Szabo trademark sickle/scythe shape applies cutting performance in both forward and backward cuts. PlainEdged 154CM blade.

### C119 Citadel 83mm

Smaller version of the C117 92mm Citadel. Blade is available in natural-color satin finish or with a black carbon nitride coated blade.
Automatic knives can only legally be purchased, owned and/or possessed, if at all, subject to the laws of your state and of the United States. Purchasing and/or possessing an automatic knife may subject you to criminal liability. To legally purchase and/or possess an automatic knife, you must fall into one of the categories of purchasers/possessors outlined in the statutory language of 18 U.S.C. Section 1716(g)(2)(1-4) and 15 U.S.C. Section 1244(2-4) below. You must also be in compliance with any local and state laws, statutes, and regulations related to the purchase and possession of automatic knives.

---

**IMPORTANT LEGAL NOTICE**

15 United States Code Section 1241, et. seq. - The Federal Switchblade Act states:

§ 1241. Definitions
As used in this Act—
[a] The term ‘interstate commerce’ means commerce between any State, Territory, possession of the United States, or the District of Columbia, and any place outside thereof.
[b] The term ‘switchblade knife’ means any knife having a blade which opens automatically—
(1) by hand pressure applied to a button or other device in the handle of the knife, or
(2) by operation of inertia, gravity, or both.

§ 1242. Introduction, manufacture for introduction, transportation or distribution in interstate commerce; penalty
Whoever knowingly introduces, or manufactures for introduction, into interstate commerce, or transports or distributes in interstate commerce, any switchblade knife, shall be fined not more than $2,000 or imprisoned not more than five years, or both.

§ 1243. Manufacture, sale, or possession within specific jurisdictions; penalty
Whoever, within any Territory or possession of the United States, within Indian country (as defined in section 1151 of title 18 of the United States Code), or within the special maritime and territorial jurisdiction of the United States (as defined in section 7 of title 18 of the United States Code), manufactures, sells, or possesses any switchblade knife, shall be fined not more than $2,000 or imprisoned not more than five years, or both.

§ 1244. Exceptions
Sections [1242 and 1243] of this Act shall not apply to—
(1) any common carrier or contract carrier, with respect to any switchblade knife shipped, transported, or delivered for shipment in interstate commerce in the ordinary course of business; or
(2) the manufacture, sale, transportation, distribution, possession, or introduction into interstate commerce, of switchblade knives pursuant to contract with the Armed Forces; or
(3) the Armed Forces or any member or employee thereof acting in the performance of his duty; or
(4) the possession, and transportation upon his person, of any switchblade knife with a blade three inches or less in length by any individual who has only one arm.

18 United States Code, Section 1716 relevantly states:
[g] All knives having a blade which opens automatically (1) by hand pressure applied to a button or other device in the handle of the knife, or (2) by operation of inertia, gravity, or both, are nonmailable and shall not be deposited in or carried by the mails or delivered by any officer or employee of the Postal Service. Such knives may be conveyed in the mails, under such regulations, as the Postal Service shall prescribe—
