OpFocus

Opfocus, short for “Operational Focus,” is one of Spyderco’s products from the perspective of those with specific operational needs. It is designed for the martial artist, or defense-minded professional, first responder, or duty-bound armed civilian. It is intended to highlight the mission-oriented features of Spyderco—just viewed through the perspective of those with operational needs.

The Schempp Tuff is one knife prototype pictured. By Ulrich Henning

The Ulize is a sleek folder optimized for duty and personal-defense applications. Its VG-10 blade features a slightly recurved edge profile and supports ambidextrous operation. Full stainless steel liners and a stainless back spacer support the handle’s G-10 scales, back lock mechanism, pivot and a chris reeve Integral lock (r.I.l.).

Opfocus is still 100% with specific operational needs to our products to enable customers to make the right choice. Opfocus—just viewed through the perspective of those with specific operational needs.

C130 GRASSHOPPER

A good folding knife should be lightweight, well balanced, and have a smooth, easy opening mechanism. The selected blade steel should be corrosion resistant and have good edge retention. The handle should provide a comfortable grip with good control and secure the blade in place. A quality blade should be made from high-quality materials and should perform well in various cutting tasks.

C129FF
MODELL CRICKET GLASS FIBER

Features include a high-quality stainless steel blade, a secure lock mechanism, and a comfortable handle. The blade is designed for durability and ease of use, making it suitable for a variety of cutting tasks. The handle is ergonomically designed for a comfortable grip, ensuring that the user can maintain control even during prolonged use.

C1545PN
5050A PNK

This knife is ideal for everyday carry, offering a balance of performance and portability. The blade is made from high-quality materials, ensuring longevity and reliability. The handle is designed for comfort and control, making it suitable for a wide range of cutting tasks.

C1525TP
CHAPARAL TITANIUM

The Chaparal Titanium is a high-performance folding knife designed for extreme conditions. The blade is made from high-quality materials, ensuring durability and edge retention. The handle is ergonomically designed for a comfortable grip, making it suitable for extended use.

C145PF
ENDING PLAT GROUND, BLACK FIN

The Ending Platform Ground knife features a high-quality blade and a sleek, stylish design. The blade is made from corrosion-resistant materials, ensuring longevity and edge retention. The handle is designed for a comfortable grip, making it suitable for extended use.

C114CFP
ENDING FINISHER HANDLE AND DAMASCUS BLADE

The Ending Finisher is a high-quality folding knife designed for precise cutting tasks. The blade is made from high-quality materials, ensuring durability and edge retention. The handle is ergonomically designed for a comfortable grip, making it suitable for extended use.

C113CFP
CALY BARRON FINISH HANDLE AND DAMASCUS BLADE

The Caly Barron is a high-quality folding knife designed for precision cutting tasks. The blade is made from high-quality materials, ensuring durability and edge retention. The handle is ergonomically designed for a comfortable grip, making it suitable for extended use.
